

WHAT YOU WILL LEARN

The Fashion Design track offers a diverse and interdisciplinary studio environment where students will explore multiple areas of design and their influences within industry, society and profession. Architecture, Interior Design, Industrial Design, Fashion Design and Fashion Merchandising are areas that make up the studio culture in the Design Program at CCM.

The Fashion Design track provides a comprehensive foundation for students transferring to four-year colleges and universities to pursue a Bachelor of Science or a Bachelor of Fine Arts in Fashion Design. Contemporary and traditional skillsets acquired at CCM provide the student with immediate opportunities in industry as Design Assistants or Interns, Pattern Making Assistants, and Fashion/Trade Show Assistants.

WHY STUDY FASHION DESIGN AT CCM?

County College of Morris has designated studio classrooms with state-of-the-art equipment and software available to all design students during their academic studies at CCM. The class size average is 12:1 in the studio; this ratio fosters a mentoring relationship between the student and professor. Studios are supplied with materials and resources that allow extensive opportunities for creative exploration in research and process.

Faculty are dedicated and highly accomplished. Many maintain professional practice, bringing real world problems to the design curriculum and classroom.

The program is accredited by the Middle States Association of Colleges and Schools.
