

WHAT YOU WILL LEARN

The Interior Design track offers a diverse and interdisciplinary studio environment where students experience multiple areas of design and their influences within industry, society and profession. Architecture, Interior Design, Industrial Design, Fashion Design, and Fashion Merchandising are areas that make up the studio culture in the Design Program at CCM.

The Interior Design track provides a comprehensive foundation for students transferring to four-year colleges and universities to continue their studies and pursue a Bachelor of Science (B.S.) or a Bachelor of Fine Arts (BFA) degree in Interior Design. Contemporary and traditional skillsets acquired at CCM provide the student with immediate opportunities in industry as CAD Designers, Interior Design Assistants, Color and Materials Designers, Model Home Merchandisers, Design Salespeople and Revit Modelers.

WHY STUDY INTERIOR DESIGN AT CCM?

County College of Morris has designated studio classrooms with state-of-the-art equipment and software available to all design students during their academic studies at CCM. The class size average is 12:1 which fosters a mentoring relationship between the student and professor.
