

WHAT YOU WILL LEARN

The Certificate of Achievement within Digital Media Technology provides a grounding in media technology for individuals who already hold a post-secondary degree and who are interested in a career change or enhancement of current skills. A professional certification can open doors for finding employment or advancing a career in media-related occupations including advertising, broadcasting, marketing, multimedia development, public relations and training.

The 15/16 credit program is a compact collection of courses in media production skills enabling individuals to work effectively in the creative aspects of digital media. The program is flexible so students may concentrate in a particular area of interest or build a broad repertoire of basic production skills.

WHY STUDY MEDIA TECHNOLOGY AT CCM?

Technology provides the tools to help change the world. It's embedded in all aspects of life from health care to fashion, from financial systems to art and entertainment, and everything in between. Creative solutions are required to solve tomorrow's problems and computing skills are an essential element for achieving results.

The Certificate of Achievement in Media Technology at CCM is designed to provide training in the area of digital technology as it affects the field of media. Students gain an understanding of electronic visual communications, an introduction to computer-based media platforms and basic skills in a variety of media production specialties.

The certificate may be earned while pursuing an Associate of Applied Science (AAS) degree in Digital Media Technology at CCM. Classes may overlap making the completion of the certificate available before or at the same time as the completion of the degree program.

Visit the department website for more information www.ccm.edu/academics/divdep/bmet/departement-of-information-technologies/.
