

RADIOGRAPHY PROGRAM MISSION

The Radiography Program seeks to provide each student with the didactic, laboratory and clinical education to become a qualified entry level Radiologic Technologist. The program provides each student the opportunity to develop technical skills, enhance critical thinking and strengthen interpersonal behavior through educational activities. The program will provide an environment that will be conducive to learning, stimulate self-development and foster an appreciation of and commitment to the profession.

RADIOGRAPHY PROGRAM GRADUATE GOALS

The Radiography Program will produce:

1. Graduates who are competent entry level Radiologic Technologists.
2. Graduates who will practice effective communication, radiation protection and patient safety skills.
3. Graduates who will demonstrate critical thinking and problem solving skills.
4. Graduates who demonstrate professional and ethical behavior.
