

WHAT YOU WILL LEARN

“Don’t ask what the world needs. Ask what makes you come alive, and go do it. Because what the world needs is people who have come alive.”

~ Howard Thurman, author, philosopher, theologian, educator and civil rights leader

A Fine Arts Degree offers excellent preparation for any career rooted in aesthetics, good design, creative thinking, planning and production.

WHY STUDY VISUAL ARTS AT CCM?

The faculty are a team of professionals and nationally and internationally exhibited artists. Their artworks are represented in museums, state and local government buildings and large corporations.

The facilities in Visual Arts are large, open spaces with natural lighting, state-of-the-art equipment and comfortable modern furnishings that facilitate and enhance students’ creative endeavors.

The Visual Arts Program offers students a solid foundation for advanced study in the areas of Studio Art (Drawing, Painting, Sculpture and Ceramics), Art Education, Art History, Art Therapy, Design, Graphic Design and Photography. Students develop an understanding of the visual arts through the intensive study of technique, history, theory, concept and hands-on approaches in studio work, and may take studio electives in a variety of media. The Visual Arts curriculum is designed for transfer into B.F.A. and B.A. degree programs in Fine Arts, Art Education, Art Therapy, Art History, Photography, Design and Graphic Design at four-year colleges, universities, schools of design and institutes of art.
