Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the County College of Morris (the “College”), in the County of Morris, as of and for the fiscal years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the College’s basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the College, as of June 30, 2022 and 2021, and the respective changes in financial position, and, where applicable cash flows thereof for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), audit requirements prescribed by the Office of Management and Budget, Department of Treasury, State of New Jersey (the “Office”) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College’s ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards* and audit requirements prescribed by the Office will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and audit requirements prescribed by the Office, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College’s internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, which follows this report, the pension and post-retirement required supplementary information schedules and the related notes, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, are required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying schedules of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2023 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering College's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Unaudited

This section of the County College of Morris' audited financial statements presents management's discussion and analysis of the College's financial activity for the fiscal years ended June 30, 2022 and 2021. Since this discussion and analysis focuses on current activities, resulting changes and currently known facts, please read it in conjunction with the College's basic financial statements and the footnotes.

Using This Annual Report

The financial statements focus on the College as a whole and are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The financial statements are prepared using the accrual basis of accounting which recognizes revenues when earned and expenses when incurred. The entity-wide statements are comprised of the following:

- *The Statement of Net Position* presents all of the College's assets, deferred inflows and outflows, and liabilities, with the difference reported as *net position*. The assets and liabilities are reported in order of relative liquidity while net position is categorized as *Net Investment in Capital Assets, Restricted, or Unrestricted*. Over time, increases or decreases in net position are an indicator of the improvement or erosion of the College's financial health.
- *The Statement of Revenues, Expenses, and Changes in Net Position* presents revenues and expenses incurred during the year. Revenues and expenses are reported as either operating or non-operating, with operating revenue consisting of tuition, student financial aid, auxiliary services, and contracts and grants. State and county appropriations, investment activities, as well as federal Pell grants, are reported as non-operating and denote the dependency the College has on their support.
- *The Statement of Cash Flows* presents information on cash flows from operating activities, non-capital financing activities, capital financing activities, and investing activities. It provides the net increase or decrease in cash between the beginning and end of the fiscal year and assists in evaluating the College's ability to meet financial obligations as they become due.

Financial Highlights

The following is a graphical illustration of net position as of June 30, 2022, and 2021:

NET POSITION

Fiscal Year 2022 Compared to 2021

Net position increased by \$737 thousand. Unrestricted net position increased by \$2.77 million as a result of operations. Investments in capital assets decreased by \$2.7 million (see footnote number 5 in the notes to financial statements). The College Foundation's non-expendable net position increased by \$291 thousand. It should be noted that included in unrestricted net position is \$10.2 million of board designated funds for capital projects identified in the College's technology, facilities master and deferred maintenance plans. These funds were transferred from Current Unrestricted to the Plant Fund for specific projects including investments in computer technology to support the College's technology plan, emphasis on improving classrooms to be more conducive to student learning, faculty office renovations, enhancing video surveillance and other renovation projects. Also included in unrestricted net position is a board appropriated \$6.1 million reserve for plant renewal and adaptation. The New Jersey Commission of Higher Education recommends a reserve between 1.5% and 3% of the replacement value of its buildings in order to preserve the value of the physical plant and to have sufficient funds available to adapt the plant to the changing mission of the institution.

Fiscal Year 2021 Compared to 2020

Net position increased by \$7.9 million. Unrestricted net position increased by \$9.1 million as a result of operations. Investments in capital assets decreased by \$2 million (see footnote number 5 in the notes to financial statements). The College Foundation's non-expendable net position increased by \$277 thousand. It should be noted that included in unrestricted net position is \$8.8 million of board designated funds for capital projects identified in the College's technology, facilities master and deferred maintenance plans. These funds were transferred from Current Unrestricted to the Plant Fund for specific projects including investments in computer technology to support the College's technology plan, emphasis on improving classrooms to be more conducive to student learning, faculty office renovations, enhancing video surveillance and card access coverage and other renovation projects. Also included in unrestricted net position is a board appropriated \$5.7 million reserve for plant renewal and adaptation. The New Jersey Commission of Higher Education recommends a reserve between 1.5% and 3% of the replacement value of its buildings in order to preserve the value of the physical plant and to have sufficient funds available to adapt the plant to the changing mission of the institution.

Fiscal Year 2022 Compared to 2021

Operating revenues decreased by 12% in 2022. Tuition and fees decreased by 5% due to a decline in enrollment. Revenues from state and local grants and contracts decreased by 4%. Revenues from federal grants decreased by \$5.5 million since most of the COVID-19 relief funding for student was dispersed in 2021. Gifts declined by 21% from \$733 thousand to \$578 thousand. Miscellaneous revenue increased by \$299 thousand or 50% due to the return of facility rentals and ticket sales.

Non-operating revenues decreased by \$8.1 million. The County of Morris appropriation to the College remained flat. The College's appropriation from the State of New Jersey increased by \$933 thousand bringing it back to pre-pandemic funding levels. Federal Pell grants increased by \$155 thousand and Federal grants for COVID-19 relief offset \$1.7 million in lost revenue. Investment income decreased by \$2.99 million as a result of the decline in the fair market value of the Foundation's investments.

Operating expenses decreased by \$8.2 million. This decrease was the direct result of less COVID-19 relief funding for students and operations and cost containment efforts necessary to offset declining enrollment. Auxiliary service expenditures increased by \$149 thousand because of more classes were held on campus. All other expenses remained relatively constant.

Fiscal Year 2021 Compared to 2020

Operating revenues increased by 32% in 2021. Tuition and fees decreased by 8.5% due to a decline in enrollment. Revenues from state and local grants and contracts increased by \$4.1 million or 52%. Revenues from federal grants increased by \$12.5 million driven by COVID-19 relief funding for students. Gifts increased 142% from \$302 thousand to \$733 thousand. Miscellaneous revenue decreased by \$47 thousand or 7% due to the continuation of cancellations of facility rentals and ticket sales due to the virus.

Non-operating revenues increased by \$8.6 million. The County of Morris appropriation to the College remained flat. The College’s appropriation from the State of New Jersey increased by \$226 thousand. Federal Pell grants decreased by 12% or \$811 thousand due to the decline in enrollment. Federal grants for COVID-19 relief offset \$7.9 million in lost revenue. Investment income increased by \$1.27 million a result of an increase in the fair market value of the Foundation’s investments.

Operating expenses increased by \$15.1 million. This increase was the direct result of COVID-19 relief funding for students and operations. Auxiliary service expenditures declined by \$567 thousand because of more classes being held online. All other expenses remained relatively constant.

Capital Assets and Long-Term Debt

The College has several construction projects in progress (for more information see footnote 5 on capital assets on page 24).

On January 1, 2014 the College entered into a ten year capital lease with the New Jersey Educational Facilities Authority. Remaining future minimum lease payments total \$37,760 (for more information see footnote 11 on page 39).

Economic Factors That Affect the Future

The economic position of County College of Morris is closely tied to that of the State of New Jersey and County of Morris. The county support to the College remained constant and all indications are that there will be a modest increase in support for fiscal years 2023 and 2024. The State of New Jersey's budget includes a \$5 million increase for the community colleges for fiscal year 2023. It also has introduced performance-based funding metrics.

Higher education is a labor intensive industry. Negotiated salary increases averaged 3% in 2022 for full time employees with settled contracts. Staffing turnover and eliminated positions continues to reduce the wage base. The College will experience a 15.5% increase in health benefit costs effective January 2023 costing an additional \$1 million annually.

The impact of flat support and declining enrollment necessitated an increase in tuition and fees of 5.8% beginning summer 2023. Enrollment is projected to remain relatively flat for the next few years. The Morris County high school senior population is projected to decline by 4.6% from 2022 to 2027. This statistic, among others, prompted the College to develop strategic enrollment and marketing plans in an effort to increase enrollment. Non-traditional student markets will be targeted based on the statistic that 40% of Morris County adults do not have advanced degrees. New programs of study will also be explored including the expansion of workforce development training. These efforts are not expected to have an immediate impact, therefore cost containment efforts will continue. Tuition and fee increases may also be necessary to afford the College the operating resources required to maintain the current quality and level of programs offered.

The College received \$3.982 million in funding from the State of New Jersey Chapter 12 program for fiscal year 2022 and will receive an additional \$4.183 million in fiscal year 2023. The Chapter 12 program is a revolving bond fund which requires each county to bond the cost of approved construction projects for their respective community college with the state funding 50% of the debt service and the county funding the remaining 50%. These funds have enabled the College to improve and renovate its buildings, increase accessibility and maintain its exterior facilities.

COUNTY COLLEGE OF MORRIS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 1: Summary of Significant Accounting Policies

Basis of Accounting

The County College of Morris (the College) and its component units' financial statements are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant policies.

The College makes a distinction between operating and non-operating revenues and expenses. Operating activities reported on the Statement of Revenues, Expenses and Changes in Net Position generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Nearly all the College's expenses are from exchange transactions. Transactions not meeting this definition, including investment income, are reported as non-operating activities. Certain significant revenue streams which are relied upon for operations, including state and county appropriations, are recorded as non-operating revenues. Restricted resources are independently tracked at the discretion of the College and expended within the guidelines of donor restrictions, if any.

Reporting Entity

Governmental Accounting Standards Board's publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity," establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. At least one of the following criteria must be met for inclusion: (1) the component unit's governing body is substantively the same governing body of the primary government and there is either a financial benefit or burden relationship between the primary government and component unit or management of the primary government has operational responsibility for the component unit; (2) the component unit provides service entirely, or almost entirely, to the primary government or otherwise exclusively benefits the primary government even though it does not provide services directly to it; or (3) the component unit's total outstanding debt, including finance purchases, is expected to be repaid entirely or almost entirely with the resources of the primary government. Accordingly, the County College of Morris is a component unit of the County of Morris.

The County College of Morris Foundation (the Foundation) is a legally separate, tax-exempt entity that was established exclusively to carry out charitable, educational functions that benefit the College, its students, faculty, and staff. The College is the sole corporate member of the Foundation. Management of the College has operational responsibility for the Foundation, and members of the College's Board of Trustees also serve concurrently as members of the Foundation Board. All financial resources and services of the Foundation are performed for the direct benefit of the College or its constituents, and the College can access these significant resources. As a result, the Foundation is considered a component unit of the College and is blended into the financial statements accordingly.

Measurement Focus

The financial statements of the County College of Morris have been prepared using the economic resources measurement focus and the accrual basis of accounting and conform to accounting principles generally accepted in the United States of America as applicable to colleges and universities. For financial reporting purposes, the College utilizes the business-type activities model.

COUNTY COLLEGE OF MORRIS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 1: Summary of Significant Accounting Policies (Cont'd)

Under the terms of grant and other agreements, the College may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, other restricted funds, and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the College's policy to first apply cost-reimbursement grant and other restricted resources to such programs, followed by general revenue.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of the resources available to the College, accounts are maintained in accordance with the principles of "fund accounting." This is the procedure by which resources for various purposes are classified for accounting and internal reporting purposes into funds that are in accordance with activities or objectives specified. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds have been combined to comply with the requirements of eliminating internal revenue and expense charges and to meet the financial reporting requirements under accounting principles generally accepted in the United States of America as promulgated by GASB.

Within each fund group, fund balances restricted by outside sources are so indicated and are distinguished from Unrestricted Funds allocated to specific purposes by action of the governing board. Restricted Funds may only be utilized in accordance with the purposes established by the donor or grantor of such funds and are in contrast with Unrestricted Funds, over which the governing board retains full control to use in achieving any of its institutional purposes.

The College uses encumbrance accounting for internal accounting and reporting. Under encumbrance accounting, purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation.

Deferred Outflows and Deferred Inflows of Resources

The Statement of Net Position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflow of resources, reported after Total Assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after Total Liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by GASB standards. The College is required to report the following as deferred outflows of resources and deferred inflows of resources.

Defined Benefit Pension Plans – The difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on pension plan investments, changes in the College's proportion of expenses and liabilities to the pension as a whole, differences between the College's pension contribution and its proportionate share of contributions, and the College's pension contributions subsequent to the pension valuation measurement date.

COUNTY COLLEGE OF MORRIS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 1: Summary of Significant Accounting Policies (Cont'd)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense and information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between assets, deferred inflows and outflows, and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the College, or through external restrictions imposed by grantors or laws and regulations of other governments.

Nonexpendable restricted net position is comprised of gifts received for endowment purposes, the corpus of which cannot be expended. Expendable restricted net position represents grants, contracts, gifts, and other resources that have been externally restricted for specific purposes. Unrestricted net position includes the remaining amounts of net position, including those that have been designated by management to be used for other than general operating purposes.

Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Compensated Absences

The College accounts for compensated absences (unused vacation and sick leave) as directed by GASB. A liability for compensated absences, attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee, is accrued as employees earn the rights to the benefits.

College employees are granted varying amounts of vacation and sick leave in accordance with the College's personnel policy or appropriate labor contract. Upon termination, employees are paid for accrued vacation. The College's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the College for the unused sick leave in accordance with the College's personnel policy or appropriate labor contract.

In the Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components –the amount due within one year and the amount due after one year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 1: Summary of Significant Accounting Policies (Cont'd)

Inventory

Inventories of supplies and inventories for resale are valued at cost.

Note 1: Summary of Significant Accounting Policies (Cont'd)

Income Taxes

The College, as an instrumentality of the State of New Jersey and therefore a governmental entity, is a tax-exempt organization and not subject to either federal or state income taxes. The Foundation is exempt from taxation pursuant to Internal Revenue Code Section 501(c) (3). The Foundation follows the accounting standard for uncertain tax positions, which had no effect on the entity. Federal and state tax returns for the entity are open for review within the statutory periods established by Federal and State authorities.

Allowance for Uncollectible Accounts

The student receivables are stated net of an allowance for estimated uncollectible amounts. The method used for estimating the allowance is based on analysis of aging receivables and historical data.

Note 2: Cash, Cash Equivalents, and Investments

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with maturities of three months or less.

Investments are presented in the financial statements generally in the aggregate at fair value. Unrealized gains and losses are recorded as investment income. The fair value hierarchy prioritizes the inputs used to measure fair value into three levels. Level 1 input is quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices in Level 1 that are observable either directly or indirectly. Level 3 inputs are unobservable inputs. The College's investments for the year ended June 30, 2022 consisted of certificates of deposits with maturity dates of greater than ninety days, common stock, and investments with the Common Fund, a non-profit organization which provides investment management services exclusively for private and public colleges and universities, as well as independent schools. GASB requires disclosure of the level of custodial credit risk assumed by the College in its cash, cash equivalents, and investments, if those items are uninsured or unregistered.

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned.

Interest Rate Risk

In accordance with its cash management plan, the College ensures that any deposit or investment matures within the period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

COUNTY COLLEGE OF MORRIS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 2: Cash, Cash Equivalents, and Investments (Cont'd)

Credit Risk

The College limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed in this section of this note on investments.

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows. The fair value of the collateral must equal 5% of the average daily balance of public funds and if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a fair value equal to 100% of the amount exceeding 75%. All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Cash and Cash Equivalents

Cash and cash equivalents of the College as of June 30 consisted of the following:

	2022 College	2021 College
Cash on Hand	\$ 10,966	\$ 5,640

Money Market Accounts	27,568,076	29,080,287
	\$ 41,467,899	\$ 36,113,096

The carrying amount of the College's cash and cash equivalents at cost on June 30, 2022 and June 30, 2021 was \$41,467,899 and \$36,113,096. The bank balance were \$41,582,716 and \$36,333,909, respectively. Of the bank balance, \$5,857,367 in 2022 and \$1,248,946 in 2021, deposited with the New Jersey Cash Management Fund are uninsured and unregistered.

Investments

The College's policy is to follow New Jersey State Statute which permits the College to purchase the following types of securities:

1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America
2. Government money market mutual funds
3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor
4. Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units

5. Local government investment pools
6. Deposits with the State of New Jersey Cash Management Fund
7. Agreements for the repurchase of fully collateralized securities if:
 - a. the underlying securities are permitted investments pursuant to items 1 and 3 above;
 - b. the custody of collateral is transferred to a third party;
 - c. the maturity of the agreement is not more than 30 days;
 - d. the underlying securities are purchased through a public depository as defined in statute; and
 - e. a master repurchase agreement providing for the custody and security of collateral is executed.

The Foundation is a 501(c) (3) entity and a component unit of the College. The Foundation may invest in commercial paper, repurchase agreements, treasury bills, certificates of deposit, money market funds, component debt securities, common stocks, preferred stocks, convertible securities, and obligations of the U.S. Government. The credit quality rating for the Common Fund high equity bond investment is AA+.

COUNTY COLLEGE OF MORRIS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022 AND 2021

Note 5: Capital Assets

Capital assets include property, plant equipment, and infrastructure assets, such as roads and sidewalks. Capital assets are defined by the College as assets with an initial unit cost of \$2,500 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. The County of Morris is responsible for the issuance of bonds and notes for the College's capital expenditures which are financed by bond ordinances. The County is also responsible for the payment of interest on issued debt and the retirement of such obligations. Accordingly, the debt is reported in the financial statements of the County of Morris. Donated capital assets and donated works of art are recorded at acquisition value. Capital assets have been reviewed for impairment.

Note 7: Pension Plans

A substantial number of the College’s employees participate in one of the two pension plans administered and/or regulated by the New Jersey Division of Pensions and Benefits: (1) the Public Employees’ Retirement System or (2) the New Jersey Alternate Benefit Program. In addition, several College employees participate in the Defined Contribution Retirement Program administered by Prudential Financial for the New Jersey Division of Pensions and Benefits. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

General Information About the Pension Plans

Public Employees’ Retirement System – The Public Employees’ Retirement System (PERS) is a cost-sharing, multiple-employer defined benefit pension plan which was established as of January 1, 1955. Substantially all full-time employees of the College, (provided the employee is not required to be a member of another state-administered retirement system, other state pension fund, or local jurisdiction’s pension fund) are covered under PERS.

Alternate Benefit Program – The New Jersey Alternate Benefit Program (ABP) is a single-employer, defined contribution pension plan, which was established pursuant to P.L. 1969, c. 242 (N.J.S.A 18A:66-167 et seq.)

Defined Contribution Retirement Program – The Defined Contribution Retirement Program (DCRP) is a single-employer defined contribution pension fund which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et. Seq.), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010.

Individuals covered under DCRP are employees enrolled in TPAF or PERS on or after July 1, 2007, or who earn salary in excess of established “maximum compensation” limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who

do not earn a minimum annual salary for a certain enrollment tier but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010 who do not work the minimum number of hours per week required for certain enrollment tiers, but who earn a salary of at least \$5,000 annually.

Benefits Provided

Public Employees' Retirement System – The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007, and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008, and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010, and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to members of tiers 1 and 2 upon reaching age 60 and to members of tier 3 upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to members of tier 4 upon reaching age 62 and members of tier 5 upon reaching age 65. Early retirement benefits are available to members of tiers 1 and 2 before reaching age 60, tiers 3 and 4 before age 62 with 25 years or more of service, and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of their respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for their respective tier.

Alternate Benefit Program – The ABP provides retirement benefits, life insurance, long-term disability coverage, and medical benefits to qualified members.

Defined Contribution Retirement Program – Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 101(a), a noncontributory group life insurance plan, and a noncontributory group disability benefit plan.

A participant's interest in that portion of their defined contribution retirement plan account attributable to employee contributions shall immediately become and shall always remain fully vested and nonforfeitable. A participant's interest in that portion of their defined contribution retirement plan account attributable to employer contributions shall be vested and nonforfeitable on the date the participant commences the second year of employment or upon their attainment of age 65, while employed by an employer, whichever occurs first.

Contributions

Public Employees' Retirement System – The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over seven years beginning in July 2012. The member contribution rate was 7.50% in fiscal year 2022.

The phase-in of the additional incremental member contribution rate took place in July of each subsequent State fiscal year. Employers' contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances and noncontributory death benefits.

The College's contractually required contribution rate for the fiscal year ended June 30, 2022 was 15.18% of annual College payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the College were \$1,381,993 for the fiscal year ended June 30, 2022.

Alternate Benefit Program – The contributions requirements of plan members are determined by State statute. In accordance with N.J.S.A. 18A:66-173, required contributions, calculated on the employee's base pay, are 5% for plan members, and 8% for employers. Plan members may make additional voluntary contributions subject to section 403(b) of the internal revenue code.

Under N.J.S.A 18A:66-174, most employer contributions are made by the State of New Jersey on-behalf of the College. The College is responsible for the employer contributions for non-academic employees.

Plan members direct the investment of contributions to insurance companies and mutual fund companies selected by the New Jersey Division of Pensions' Pension Provider Selector Board. These companies administer plan funds based on alternate benefit contracts with the New Jersey Division of Pensions.

Amounts deferred under the plan are not available to employees until termination, retirement, death, or unforeseeable emergency.

Defined Contribution Retirement Program

State and local government employers contribute 3% of the employees' base salary. Active members contribute 5.5% of base salary.

For the fiscal year ended June 30, 2022, employee contributions totaled \$32,509 and the College recognized pension expense of \$17,732. There were no forfeitures during the fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The following information relates to the Public Employees' Retirement System (PERS) which is a cost-sharing multiple-employer defined benefit pension plan.

At June 30, 2022 the College reported a liability of \$13,979,636 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The College's proportion of the net pension liability was based on a projection of the College's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021, the College's proportion was .1180064771% which was an increase of .000392857% from its proportion measured as of June 30, 2020.

At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability in the June 30, 2021, measurement date was determined by an actuarial valuation as of July 1, 2020, which was rolled to June 30, 2021. The actuarial valuation used the following actuarial assumptions:

Inflation rate:	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00% - 6.00% Based on Years of Service
Thereafter	3.00% - 7.00% Based on Years of Service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee Mortality Table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and a 99.7% adjustment for females, and with future improvement from base year 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

Note 7: Pension Plans (Cont'd)

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on pension plan investments (7.00% at June 30, 2021) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the Board of Trustees and actuaries. The long-term expected rates of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 2021 are summarized in the following Table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	8.09%
Non-U.S. Developed Markets Equity	13.50%	8.71%
Emerging Markets Equity	5.50%	10.96%
Private Equity	13.00%	11.30%
Real Assets	3.00%	7.40%
Real Estate	8.00%	9.15%
High yield	2.00%	3.75%
Private Credit	8.00%	7.60%
Investment grade credit	8.00%	1.68%
Cash equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	0.95%
Risk mitigation Strategies	3.00%	3.35%

Discount Rate

The discount rate used to measure the total pension liabilities of the plan was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and the contributions from employers, and the non-employer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued New Jersey Division of Pension and Benefits financial report. Information on where to obtain the report is indicated above.

Note 8: Retirement Program

The faculty, as well as certain administrative and professional employees of New Jersey Public Colleges and Universities, may enroll in optional retirement plans. This is in lieu of participation in the pension plans detailed in Note 7. The optional retirement plans offered through TIAA-CREF, ING, Met-Life, AIG-Valic, The Hartford, and AXA Equitable are defined contribution plans. Accordingly, benefits depend solely on amounts contributed to the plan plus investment earnings.

Plan contributions are based on annual salary. Employees contribute 5% of salary and the State of New Jersey contributes 8% of salary, for a total contribution of 13%. The employer (8%) and employee (5%) contributions are sent to a delayed vesting contract immediately upon hire. The participants have personal contracts with the above companies and personally own the annuities. Total contributions from the State of New Jersey for the year-ended June 30, 2022 were \$1,353,813 and total expenses under the plan were \$397,427. State of New Jersey contributions are recognized as revenue and expenses in the appropriate periods.

Note 9: Postemployment benefits other than pensions (OPEB) State Health Benefit Program Fund – Local Education Retired Employee Plan

General Information about the OPEB Plan

The College is in a “special funding situation,” as described in GASB Statement No. 75, in that OPEB contributions and expenses are legally required to be made by and are the sole responsibility of the State of New Jersey, not the College.

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefits for the State Health Benefit Local Education Retired Education Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The State Health Benefits Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers’ Pension and Annuity Fund (TPAF), the Public Employees’ Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP).

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree’s annual retirement benefit and level of coverage.

The total non-employer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits, if any, is the responsibility of the individual education employers.

Mortality Rates

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of actuarial experience studies for the periods July 1, 2015 – June 30, 2018 and July 1, 2014 – June 30, 2018 for TPAF and PERS, respectively.

Preretirement mortality rates were based on the Pub-2010 Healthy “Teachers” (TPAF/ABP), “General” (PERS) and “Safety” (PERS) classification headcount-weighted mortality table fully generational mortality improvement projections from the central year using MP-2021. Post-retirement mortality rates were based on the Pub-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 “General” classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2010, “General” (PERS) and “Teachers” (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.65% and decreases to a 4.50% long term rate after seven years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rate for fiscal year 2022 through 2023 are reflected. For PPO the trend is initially 5.74% in fiscal year 2024, increasing to 12.93% in fiscal year 2025 and decreases to 4.50% after 11 years. For HMO the trend is initially 6.01% in fiscal year 2024, increasing to 15.23% in fiscal year 2025 and decreases to 4.50% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.50% long term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

Discount Rate

The discount rate for June 30, 2021, was 2.16%. This represents the municipal bond rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate. It is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Note 11: Long-term Liabilities (Cont'd)

Financed Purchases Payable

On January 1, 2014, the College entered into a ten-year finance purchase with the New Jersey Educational Facilities Authority. The Authority will issue up to \$47,418,350 of revenue bonds to finance the purchase of higher education equipment for finance purchase to various public and private institutions of higher education within the State of New Jersey. The College's share of the issue will be for equipment up to \$1,274,387. The State of New Jersey will pay 75% of the annual debt service on the bonds, subject to annual appropriations. The College began paying 25% of the annual debt service on May 1, 2015. The assets acquired under the financed purchase were all instructional equipment, with accumulated depreciation to date of \$1,274,387.

Note 13: Interfund Transfers

The following interfund transfers were made during the years ended June 30, 2022 and June 30, 2021:

	2022	2021
Mandatory Transfers:		
General to Restricted for Required Matching Funds	\$ 45,452	\$ 43,933

Foundation to Restricted for Program Expenditures	283,895	96,000
Student Activities to Foundation for Scholarships	2,377	4,961

Note 14: Restricted Expendable Net Position

Restricted net position includes resources that the College is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties. When both restricted and unrestricted resources are available for use, it is the College's policy to use restricted resources first, then unrestricted resources when they are needed. The restricted expendable net position at June 30, 2022 and 2021 is comprised of the following categories:

	2022	2021
	College	College
Scholarships	\$ 1,847,990	\$ 1,609,954
Unemployment Benefit Reserve	424,595	313,843

Athletics	16,138	7,724
	\$ 3,474,024	\$ 3,103,865

Note 15: Restricted Non-Expendable Net Position

The Foundation has been the recipient of endowments. Current college policy does not allow spending of unrealized gains on investments. New Jersey State Law is silent on the ability to spend that net appreciation. Realized income generated from each endowment may be spent pursuant to donors' intent. The current spending policy allows for 80% of earned income to be spent on scholarships and the remaining 20% reinvested into the endowment principal.

	2022	2021

Note 19: Risk Management

The County College of Morris is currently a member of the Morris County Insurance Fund (the Pool). The Pool provides its members with property, liability, motor vehicle, and other miscellaneous coverages. The Pool is a risk-sharing public entity pool that is both an insured and self-administered group, established for the purpose of providing low-cost insurance coverage for their members in order to keep local property taxes at a minimum.

As a member of the Pool, the College could be subject to supplemental assessments in the event of deficiencies. If the assets of the Pool were to be exhausted, members would become responsible for their respective shares of the Pool's liabilities.

The Pool can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. In accordance with of the Governmental Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared.

Selected, summarized financial information for the Pool as of December 31, 2021 is as follows:

	<u>Morris County Insurance Fund</u>
Total Assets	\$9,885,790

Note 20: Contingent Liabilities (Cont'd)

The College participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The College is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the College is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

The Honorable Chairman and Members
of the Board of Trustees
County College of Morris
Randolph, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of Management and Budget, Department of Treasury, State of New Jersey (the "Department"), the financial statements of the County College of Morris (the "College") as of and for the fiscal year's ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated February 15, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

The Honorable Chairman and Members
of the Board of Trustees
County College of Morris
Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance For Each Major Federal and State Program;
Report on Internal Control Over Compliance Required by the Uniform Guidance and NJOMB 15-08

Independent Auditors' Report

The Honorable Chairman and Members
of the Board of Trustees
County College of Morris
Randolph, New Jersey

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited the County College of Morris' (the "College's") compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the District's major federal and state programs for the fiscal year ended June 30, 2022. The College's major federal and state programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2022.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Our responsibilities under those standards, the Uniform Guidance and New Jersey's OMB Circular 15-08 are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the College's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the College's federal and state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the College's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and New Jersey's OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the College's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and New Jersey's OMB Circular 15-08, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey's OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The Honorable Chairman and Members
of the Board of Trustees
County College of Morris
Page 3

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance or New Jersey's OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

COUNTY COLLEGE OF MORRIS
NOTE TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDING JUNE 30, 2022

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Schedules of expenditures of Federal and state awards includes the federal and state grant activity of the County College of Morris under programs of the federal and state governments for the fiscal year ended June 30, 2022. The information in these schedules is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”) and New Jersey’s OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Because the schedules present only a selected portion of the operations of the College, they are not intended to and do not present the financial position, changes in net position or cash flows of the College.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the accompanying schedules of expenditures of federal and state awards are reported on the accrual basis of accounting.

NOTE 3 INDIRECT COST RATE

The College has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.
