

How to access SOR files that are on the CCM server

Overview:

- 1) **These procedures are only for SORs done on paper in a face-to-face setting**
 - a. Excel files are the summary reports.
 - b. .tif files are the scanned SOR form images (*imaging started Fall 2013*)

- 2) **SORs for Online and Hybrid sections are done electronically by a 3rd party vendor.**

The vendor sends links to faculty to provide access to Online/Hybrid SORs.

Steps 1-3 below should be done before viewing SORs.

Recommended settings to view SOR files.

- **“Firefox”** is the preferred browser. *Other browsers may behave differently.*
- **“Windows Photo Viewer”** is preferred for viewing SOR form images - the tif files.
QuickTime Plug-In should not be used.
- Using other applications or settings may not produce the same results.

1. Set Windows 7 to always use “Firefox” as your DEFAULT Browser

...you can switch back to another browser after this session.

- a. Click **Start / Control Panel / Default Programs / Set Your Default Programs**
 - b. Select **Firefox**.
 - c. Click **“Set this program as default”** then click **OK**.
- [Windows 10 procedure](#) to use “Firefox” as your DEFAULT Browser.

2. Set Windows 7 to always use “Windows Photo Viewer” to open TIF and TIFF files (the SOR images):

- a. Click **Start /Control Panel / Default Programs / Associate a file type with a program**
 - b. Under the ‘Name’ column, find and double-click **.tif**
 - c. In pop-up box, under ‘Recommended Programs’ select **“Windows Photo Viewer”** and click **OK**.
 - d. Repeat steps b & c for **.tiff** file extension.
- **Windows 10** uses a new app called *“Photos”* and *“Windows Photo Viewer”* may not be an option.

3. Set how Firefox handles tif & tiff files (the SOR images):

- a. Launch **Firefox**.
 - b. Click **Tools / Options / Applications**
 - c. TIF & TIFF files should be: **“Use Windows Photo Viewer”**
 - d. To change, click the down arrow and select **“Use Windows Photo Viewer”** - then click **OK**.
- **Windows 10** uses a new app called *“Photos”* and *“Windows Photo Viewer”* may not be an option.

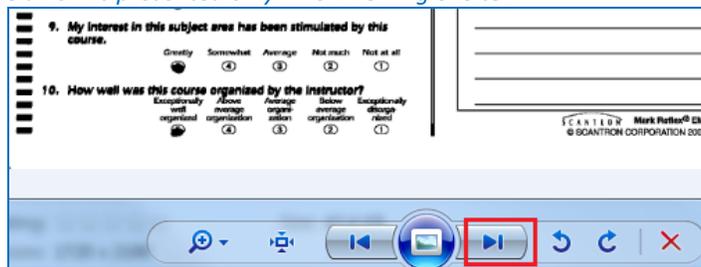

How to access SOR files that are on the CCM server

When on campus *(for full-time faculty who are logged onto the CCM network)*

1. Click your **Division's link** below or enter your Division's path in the Windows Explorer address bar.
 - BMET → <F:\groups\SORS\BMET>
 - HNS → <F:\groups\SORS\HNS> (includes 1 underscore after 'HNS')
 - LA → <F:\groups\SORS\LA> (includes 2 underscores after 'LA')
2. Double click your **Department** folder.
3. Double click your **Personal** folder.
Note: You will see other faculty folders listed; however, you only have rights to view your folder contents.
4. Double click the **Excel file** (summary report) **or .tif file** (SOR form image) that you want to see.

Tips for viewing .tif files (SOR images) on campus:

- Once a .tif is loaded into '**Windows Photo Viewer**', you can easily scroll through the remaining .tifs in the folder by clicking the right arrow at the bottom of each SOR image.
Note: the arrow is presented only when viewing onsite.

When off campus *(the only option for adjuncts and 2nd option for FT faculty)*

1. Click this link → <https://dfs.ccm.edu/groups/sors/> or enter the path into your Firefox browser address bar.
2. At the 'Authentication Required' pop-up:
Enter your CCM username and password (what you use for WebAdvisor/BlackBoard).
3. Click your **Division**
4. Click your **Department**, then your **Personal** folder.
Note: You will see other faculty folders listed; however, you only have rights to view your folder contents.
5. Click the **Excel file** (summary report) **or .tif file** (SOR form image) that you want to see.

Offsite tips:

1. **Opening and viewing Excel Summary Report and .tif files (SOR images) offsite, using Firefox:**
 - a. Split your screen so ½ shows the list of files and ½ displays the Excel report or .tif image.
 - b. Now click on the remaining files in the list that you want to see.
 - c. Scroll through them via the bottom task bar
Hover over the Excel icon  to see open reports & the 'Windows Photo Viewer' icon  for tifs
2. **When closing the Excel report, you may be asked 'do you want to save the changes?'**
 - a. All SOR files are 'read-only' and can't be modified – simply click "NO".
 - b. If you click YES, it will allow you to 'save as' on your computer, but not on the server.
 - c. **Close Firefox** to end the session.
