

Foundations of Targeted Violence Prevention

E-Learning Module

Public Safety, with the CCM Safety Committee endorsement, has been working on providing resources, developing a positive safety climate and developing situational awareness for our community. With the recent Professional Day and Campus Safety training, the office of Public Safety has found a newly released FREE, voluntary eLearning resource from the Department of Homeland Security (DHS) titled [Foundations of Targeted Violence Prevention](#) which you can take; this training is also encouraged by the Safety Committee. When you have the opportunity, please take the time to review the training. Recognizing concerning behaviors is a community effort.

The goal of this eLearning module is to educate the public on ***threatening or potentially concerning behaviors*** and where to report them, providing an opportunity for intervention to prevent targeted violence from occurring. It seeks to assist in preventing targeted violence by empowering community members to recognize threats or potentially concerning behaviors, understand what behaviors may be displayed by a person who is on a pathway to violence, learn where to report information of concern, and understand how the information reported will be used to keep our community safe.

If you have any questions re: the training, please contact Public Safety [Director Ackerman (ext. 5554) or AD Fichter (ext. 5556) or the main number 973-328-5550] or you can direct any non-emergent safety or you can direct any non-emergent safety concerns to the Safety Committee Co-Chairs, Dr. Maureen Stivala and Prof. Frank Pietropollo. While enrolling, list “1” for attending, pick “Other” for Organization Type. When we took the training, we were able to start, pin the site to return to, and complete later.

SAFETY IS EVERYONE’S BUSINESS!
