COUNTY COLLEGE OF MORRIS

FINANCE

Certificate of Achievement

WHAT YOU WILL LEARN

The financial marketplace requires a broad array of skilled financial individuals from professionals to back-office workers in areas such as banking, securities dealing and brokerage, insurance and pension funds.

The Finance program at CCM is a 12-credit Certificate of Achievement. It is a practical approach providing a broad exposure to the stock and bond markets, financial management, financial planning and financial analysis. By gathering financial information and analyzing trends, students experience a practical hands-on approach to learning about finance.

WHY STUDY FINANCE AT CCM?

The Business Department at CCM equips students with practical learning experiences in the financial field. Our faculty possess both academic credentials and professional experience in banking, securities trading and corporate finance. Some of the faculty are also licensed financial advisors. The certificate includes three required courses: Money and Banking, Principles of Finance, and Investment Principles. It also includes one elective course.

All finance students can use "Stock Trak," a stock market simulation software, to learn about investing in a fun and competitive environment, using updated real-market data.

WHERE YOU CAN GO!

The Finance certificate prepares students to major in Finance at a four-year college or university and enter the financial services industry. Many students choose the finance courses to satisfy their business elective requirement for the Associate of Science (A.S.) in Business Administration degree or the finance track for the Associate of Applied Science (AAS) in Business Professional degree at CCM.

Cooperative education experiences, such as internships and job search support, are facilitated through our Office of Career Services, where you can also learn resume building and interviewing skills. For more information, visit https://www.ccm.edu/student-support/.
