

We proudly recognize our extraordinary faculty with the DAISY Award!

**Prof Karas** is deserving of receiving this award because her impact has been felt by everyone within my clinical group. She is sweet and has continuously encouraged all of us to contribute and learn without fear of judgement.

She combines deep clinical knowledge where we feel challenged while also being supported. I feel that I can approach her with any concern, knowing that I will be met with empathy and understanding. She truly deserves this DAISY award.

**Prof Schicho** has the most contagious smile and has given my clinical group the best support and energy as we enter the nursing field. She is full of energy that radiates us all to put our best feet forward. She is punctual, kind, funny, knowledgeable, and extremely enthusiastic. Every single day, she is found with a smile and makes lectures, labs, and clinical days exceptional. I am so thankful to have her as my instructor as a first year nursing student.

Congratulations to  
Mora Karas, MSN, RN  
Bernadette Schicho, MSN, RN

Also nominated were:

- Professor Samir Samour
- Professor Katherine DellaSalla
- Professor Laura Parker
- Professor Tatiana Costa
