Subject: Criminal History Background Check and Urine Drug Screening

I acknowledge that I have received written notification informing me that all students in clinical sections will be required to submit to a Criminal History Background Check and Urine Drug Screening as mandated by the Joint Commission and Clinical Affiliate Contractual Guidelines. These Criminal History Background Checks will occur on an annual basis. If the background check yields a positive result, admission into the professional phase of the program may be denied. If at any time after acceptance into the professional phase of the program a student has a positive criminal history background record, it may result in dismissal from the program.

All students accepted for reinstatement must have an updated Criminal History Background Check before they will be permitted to attend clinical.

When a graduate applies for licensure as a nurse in New Jersey, the New Jersey Board of Nursing requires a Criminal History Background Check. If the Criminal History Background Check reveals a criminal conviction, a review of the application by the Board of Nursing is required.
