CCM Game Development Majors Holding Fundraiser to Help Children Assisting Young People Living with Health Challenges

Game Development majors at CCM will be putting their skills to work in an around-the-clock session during the college's Fifth Annual Extra Life event to help children living with health challenges.

On Saturday, November 19, the students will play video games for 24 hours straight to raise money for the Children's Specialized Hospital in Mountainside. CCM's Game Developers Club and Student Electronic Games Organization are assisting with the event which is open to the public starting at noon in the SCC. It will be streamed online at [Twitch.tv/itsETECH](https://www.twitch.tv/itsETECH).

The group is looking to raise at least \$3,000 this year. To donate or to learn more about the Extra Life fundraising event, go to <https://bit.ly/CCMExtraLife> or email kwallace@ccm.edu.

Military Veterans were graciously honored on campus at **A Day of Appreciation** on November 9. CCM student Juan Iasaiz was announced the recipient of the "Never Forget Moving Wall" [VFW Post 7333](#) Scholarship.

Details about the event with acknowledgements and photos may be viewed on CCM's social media channels and also on Flickr <https://flic.kr/s/aHBqjAeEE8>. For video go to <https://youtu.be/QKWr5-Lgm4>.

The Creative Leadership Club (CLC) has started back this Fall Semester. Most recently, as part of Veterans Build Day on November 4, four autumnal wreaths were presented to Habitat for Humanity for new homeowners. One veteran present at this event, Alex Demesier, selected a wreath for his future front door at the building Habitat for Humanity is constructing in Randolph.

CLC will meet on Friday, November 18, to make claypot gingerbread men. If you'd like to participate, contact Edie Nelson at ext. 5268 or enelson@ccm.edu.

Snow Days

As winter approaches, CCM officials will need to make decisions regarding snow days. A message regarding a campus closure means all classes and activities will be canceled and offices will be closed.

As has been the case in the past, even if classes are cancelled, faculty may choose to meet with students online, but they should not penalize students who do not have internet access. It is recommended that faculty inform their students in advance of how they will operate in the event of a closure. Faculty should talk to their dean or vice president if they have questions or need additional support.

Emotional Triggers Used by Cyber Attackers

Browsers such as Google Chrome, Microsoft Edge, Apple Safari and Mozilla Firefox are one of the most common ways people interact with the Internet. We use them for reading the news, checking email, shopping online, watching videos and playing games. As a result, browsers are also a target for cyber attackers.

Many people assume browsing online is safe if you only visit well-known, trusted websites, however this is not the case exposing you to dangers.

Snow days are considered a paid day off for all full-time employees. Check the website and email for updates. If you have not already signed up for a Titan Alert or need to update your information, we encourage you to do so through this link <https://www.getrave.com/login/ccm/>.
