

### **Samantha King**

Samantha is working for her associates in Fine Arts for Interior Design at County College of Morris. She has always enjoyed the beauty of decorating a room wherever she goes. She has had the opportunity to be able to flip spaces like individual rooms, houses, and apartments due to family and friends giving her those connections. Samantha comes from a family who all have artistic abilities and experience in flipping houses then renting or selling the project. It has always been a dream of hers to be in the house flipping game and be able to have her own clients specifically coming to her for her work in design.
