Recycling at CCM

Plant and Maintenance has an excellent recycling program, but they need our help. Recycling keeps the garbage flow down and most importantly keeps the cost down. CCM's recycling containers, picked up bi-weekly, have gone from 4 cubic yards to 6 cubic yards. In the past four months, there have been over 425 recycling containers placed through the complex for co-mingle and mixed paper. The Plant and Maintenance Department has just placed an order to purchase 20 more recycling containers to be placed throughout the campus. Plant Maintenance sorts out the recycling that is put in the garbage on a regular basis. *Please help by sorting it out before putting it out.*

All are invited to attend a Plant and Maintenance procedure briefing at 2:30 p.m., C-201, DeMare Hall on November 13. The main topic will be recycling. Recycling is here to stay, and we can all do our part to make a difference. Remember...reduce, reuse and recycle.
