## Interesting Websites

Language skills are gaining new importance as telecommunications and transportation shrink the globe. Get a head start on your resolutions this year by starting your study of a new language in December.

- Immerse yourself in French with Dr. Pierre Capretz's celebrated series, French in Action. <http://www.learner.org/resources/series83.html>. The programs engage viewers in active learning through stories and visual instruction.
- For learning Spanish, watch Destinos: An Introduction to Spanish, <http://www.learner.org/resources/series75.html> the popular "telenovela" series that has helped countless viewers to speak the language and understand the rich culture of the Spanish-speaking world.
- If you are learning or teaching German, this is the last month that you will be able to access Fokus Deutsch <http://www.learner.org/resources/series104.html> through Video on Demand. Consider purchasing the series at a discount <http://www.learner.org/catalog/series104.html> by the end of December, as after that time it will no longer be available for sale through our Web site. Also take this last opportunity to print the program transcripts: <http://www.learner.org/catalog/extras/fdtranscripts/>
- If you teach ESL or if English is your foreign language, watch Connect With English <http://www.learner.org/resources/series71.html> to brush up on speaking skills, comprehension, and knowledge of North American culture.
- Add to your foreign language teaching repertoire with ideas from Teaching Foreign Languages K-12 Workshop <http://www.learner.org/workshops/tfl/> or by observing lessons in the related video library. <http://www.learner.org/libraries/tfl/> Featured classrooms demonstrate effective teaching of French, Spanish, German, Japanese, Chinese, Italian, Russian, and Latin.
