

Release of Checks Exceeding State Bidding Threshold

WHEREAS, the Board of Trustees of the County College of Morris currently approves all purchase requisitions in excess of the State bidding threshold as established by the New Jersey State Contracts Law, and

WHEREAS, requiring Board approval for payment requisitions in excess of the State bidding threshold is unnecessary and not beneficial;

THEREFORE, BE IT RESOLVED, That the Board of Trustees for the County College of Morris authorizes the release without further Board approval of checks without regard to the amount or bid threshold for purchases previously authorized by the Board, except that Board approval shall continue to be required for release of checks for payment of capital improvements, licensed professional services, and consulting services to the Board of Trustees.
