

## STUDY ABROAD

The mission of the Study Abroad Program is to provide students with access to a global education. CCM offers its students study abroad opportunities in 25 countries through the College Consortium for International Studies (CCIS): Argentina, Australia, Austria, Canada, China, Costa Rica, Czech Republic, Denmark, Ecuador, England, France, Greece, Ireland, Italy, Japan, Morocco, New Zealand, Northern Ireland, Peru, Russia, Scotland, South Korea, Spain, Sweden and Vietnam.

The basic requirements for study abroad are at least 15 credits of completed course work and a minimum GPA of 2.5. However, some programs have more competitive requirements. Study abroad is not restricted to certain majors. Students from almost any major find that they can study abroad and still earn credit towards graduation.

Students are required to meet with the study abroad advisor well in advance of their planned semester abroad. This allows time for the student and advisor to collaborate on completing the application process, choosing classes, arranging proper transfer of credit, and applying for any required visas.

For the most up-to-date information on the study abroad destinations and the details of each of their programs, visit [www.ccisabroad.org](http://www.ccisabroad.org).
