

## SEEING THE WORLD

### Real-Life Encounters with History and Beauty

Through the travel program at County College of Morris (CCM), visiting other countries is not just flying overseas, staying in a foreign land or eating exotic foods. It's an encounter with cultures that can really change your perspective, and, maybe, your future.

Under the auspices of the CCM Department of History, and in connection with EF Educational Tours, we have conducted past expeditions to Great Britain, France, Spain, Greece, Italy and Japan.

Each tour develops a love of exploration and travel. Travelers can explore the history that is embodied in the countless landmarks, ruins and museums that we visit.

A trip abroad can also help hone a student's leadership skills and give them a global perspective they might not otherwise develop. Our travelers also have included parents, family members, staff, alumni, former faculty and friends of CCM.

## INFORMATION SESSIONS

### Making Your Decision

Prior to each trip, students and other prospective travelers are briefed at one of several recruitment meetings held on campus.

The meetings will provide a preview of the tour offerings available along with follow up for additional questions and registration information.

These sessions are beneficial to any present or future prospective traveler aspiring to expand their global reach and explore new possibilities. Connections and relationships are created long beyond the trips for many participants.

Many of our travelers make acquaintances that continue beyond the trip, as friendships and common interests develop.

CCM travelers are known to catch the travel bug and return after their first experience. Host company, EF Educational Tours offers several payment methods and all travel details.

## LIFE LESSONS IN TRAVEL

### Open Yourself to New Possibilities

CCM tours open the doors to many global journeys. Travelers experience a taste of each destination that beckons a return trip, both through the program or privately.

Travelling with CCM is a gateway to experiencing not only global diversity but the common threads
