

## New Student Advisement and Registration (NSAR) – Checklist

### YOU MUST COMPLETE THE TASKS BELOW BEFORE ATTENDING YOUR NSAR MEETING:

- Make note of your User Name (last name.first name, i.e. titan.timothy) and Password (ccm + your Student ID number, i.e. ccm1234567).
- Set up and monitor your [CCM Student Email](#).
- Review your required Math and English placement information by logging on to your [Titans Direct](#) account and clicking on “Placement Information.” Click on [Placement Guidelines](#) to understand your Math and English developmental (non-credit) requirements and course recommendations.
- Download the [Curriculum Checksheet](#) for your specific major and the [General Education Course List](#). The second page of the checksheet will provide you with course planning recommendations. Using this as your guide, choose five courses you would like to take for the upcoming semester (including any required developmental courses).
- To help you understand how to plan your courses, watch the [Titans Direct/Student Planning Videos for New Students](#) or review the [Titans Direct Instructions for Degree-Seeking Students](#) document.
- Log on to [Student Planning](#) from Titans Direct; using your curriculum checksheet as a guide, click on “My Progress” and choose sections (and terms) for courses you would like to take and plan out your first semester.
- If you are unsure about your major (or just want to explore educational options), create an account for CCM’s access to “[Career Concourse](#).” You can review your findings with your Student Success Specialist from the Academic Success Center.
