

## TECHNOLOGY LITERACY COMPETENCY TEST

If you did not take the Technology Literacy Competency test, please schedule a virtual or in-person appointment with the [CCM testing center](#). Before doing so, consult with an Academic Advisor to confirm that your major requires additional testing in this subject matter.

To do so, check the Progress tab on Student Planning from your [Titan's Direct account](#). Consult with an academic advisor and/or check the recommendations on your [curriculum checksheet](#) for your major.

Score	Score Assessment	Advisement
14 – 20	This is a passing score.	Based on the academic major a technology literacy course may still be required and/or chosen. Check “progress” on <a href="#">Titans Direct</a> , consult with an academic advisor and/or see the <a href="#">curriculum checksheet</a> for details - note that some majors have an embedded technology literacy class.
1 – 13	This is NOT a passing score	Based on the academic major, a technology literacy course may be required. Check “progress” on <a href="#">Titans Direct</a> , consult with an academic advisor and/or see the <a href="#">curriculum checksheet</a> for details - note that some majors have an embedded technology literacy class.

### **NOTES:**

- Certain degree programs require a 1 – 4 credit technology literacy course, regardless of score.
- Certain degree programs require a 1 – 4 credit technology literacy courses if students do not pass the technology literacy competency test.
- Many degree programs have a technology literacy course embedded into the curriculum, regardless of the score.
- You may retake the Accuplacer Math test one additional time, one week, after your original test. The fee for retaking the test is \$10.00.
