

Elizabeth Rivera Biography

Elizabeth Rivera was born and raised in Butler, NJ along with two other siblings. Initially, she had been interested in prehistoric fossils, and Paleontology, but her desire to create outweighed her interest in that field. She had been scribbling on paper since she was first able to hold a crayon, though her passion for art grew stronger toward the end of middle school.

At Butler High school, she began to take her hobby more seriously, taking mostly art electives and participating in the Teen Arts Festival, winning an award there. She also participated in school activities, such as the 3D club and as manager for the Fencing Club, and volunteer work at the Bloomingdale animal shelter. Highschool is also where she found computer art and began working digitally.

Elizabeth decided to pursue a degree in Animation at the County College of Morris, continuing to receive good grades and working toward her graduation. She plans to transfer to a four year school to continue on to obtain a Bachelor's degree, or potentially further. After her education is complete, she plans to enter the animation industry and push her ideas forward.
