

Antoni A. Galan

Art has always been a way in which I expressed myself. I use various mediums and techniques to create interesting and expressive art. I use tools such as pencils, ink pens, and acrylics to create my art. I enjoy art because I get to experiment and explore various ideas and techniques. Although many may find art as just a hobby, I find art as a way to express who you are and how you see the world. I find that art is the best way to express myself and to present new ideas.
