I have been a student of Animation at CCM for three years, and plan to continue my education at The Savannah College of Art and Design this winter. My work has been exhibited at the County College of Morris, DeMare Hall Strolling Art Gallery, "Spring Showcase," Randolph, NJ, and currently exhibited at the County College of Morris Fall Fine Art Portfolio Exhibition.

My work is primarily created with colored pencils on black paper, or digitally using photoshop. The subject matter of my colored pencil work is primary animals, while my digital work primarily consists of fantastical characters and creatures.
