

Emily Chavarria

I am an Interior Design major working for my Associates in Fine Arts at County College of Morris. I love doing any kind of interior design work as well as painting. Design has always been a part of my life being that my father is an Architect. I had always been his little wingman when it came to projects around the house or otherwise. Since then my fascination grew, and I had been able to figure out how I could possibly share my love for design in my own ways. I aspire to attend a four-year college following the work of obtaining my associates degree.
