Bio

Jay was born in New Jersey in the small suburban neighborhood of Netcong. He continued his higher education at the County College of Morris, where he obtained his Associates in Fine Arts. Jay lived with his grandmother, Carolina Garcia, for the first seven years of his life. Carolina, an accomplished artist, taught Jay everything she knew, which sparked Jay's love for the arts at a very young age. Throughout his youth, Jay would draw traditionally and digitally. Throughout high school and college, Jay has been taking commissions through several social media platforms. Jay's work has been exhibited at the SCCC Gallery, the Demare Hall Strolling Art Gallery, and the County College of Morris Fall Fine Art Exhibition at the Morris Museum. Jay's goal as an artist is to continue exploring portraiture in his work.
